

Fellowships and Grant Opportunities – Plastic Surgery

Due Date	Source	Name	Amount	Additional Information
December	Plastic Surgery Foundation (PSF)	Research Fellowship Grant	Up to \$50,000 for one year; salary support only	The PSF supports investigators from the beginning of their careers, during residency and as they advance to becoming experienced and well-established plastic surgeons. The purpose of the Research Fellowship Grant is to encourage research and academic career development in plastic surgery. The application must describe a structured research training plan, in addition to a research project. Only funded research projects will be considered. Evaluation of the application will place emphasis on the research training experience, research project, applicant potential, and mentor qualifications and commitment to mentoring.
December	PSF	Pilot Research Grant	Up to \$10K for one-year pilot projects	The PSF Pilot Research Grant is intended to support residents and junior faculty in their efforts to address focused research questions, obtain preliminary data to support larger grant proposals in the future, and develop a line of research that can be carried forward into an academic career. This grant supports the preliminary or pilot phase of these research projects. Senior investigators are encouraged to use other funding mechanisms, but may apply for this grant if they are proposing a new research

Due Date	Source	Name	Amount	Additional Information
				concept or novel idea for which no prior funding has been obtained. Projects that are a prelude to the NIH or other external funding agencies are encouraged.
December	PSF	Combined Pilot Research Grants Multiple grants funded in partnership with AAHS, AAPPS, AAPS, ACAPS, ASMS, ASPN, ASRM and PSRC	\$5-10K, one-year pilot projects	Together, these subspecialty organizations are dedicated to fostering the development of surgeon scientists and are committed to increasing the amount of research dollars, in order to fund pilot research studies that set the stage for investigators to apply to larger funding agencies.
December	PSF	Scott Spear Innovation in Breast Reconstruction Research Fellowship Previous Successful Application	Up to \$72,500 for salary and research support	This new grant is being offered in memory of Scott Spear, MD and the Spear family's desire to nurture and grow the training and expertise of young academicians considering a career in breast reconstruction and patient care. The application must describe a structured research training plan, and a research project focused on breast cancer or breast reconstruction.
September	American Society of Maxillofacial Surgeons	Research Grant	Number of recipients and amount varies by year; historically \$7-9K awarded to sponsoring institution	All members of ASMS are eligible for research awards. Residents or research fellows are eligible to apply if the primary investigator of the project is an active ASMS member who provides a letter of sponsorship for the application.
September	ASMS	Resident Scholar Program	Up to \$1,200 for travel	This program is for plastic surgery residents who have expressed an interest
